

The screenshot displays the PAXSTORE Administrator Center interface. The top navigation bar shows "SE Marketplace - Administrator Center" and a breadcrumb trail: "Push Task Configuration > Demo 1 A60 - 1350000413". The main content area is divided into two sections:

- App Detail:** Shows information for the "BroadPOS" application, including its status (Online), package name, version (V1.01.07E_20191108), model (A60), size (10.9 MB), and updated time (2019-11-08 02:45). It also lists the developer (usbo_terminal_android), supported OS (Android), and type (Parameter App).
- Push Templates:** Shows a list of parameter templates. The "retail.zip" template is selected. Below this, the "Edit Parameter" section allows users to choose an industry (e.g., INDUSTRY, EDC, RECEIPT, TIP, MISC, HPSPTC, COMMUNICATION) and a card type (e.g., CARD TYPE, BIN FILE, EMV). A "STORE AND FORWARD" button is visible at the bottom right.

PAXSTORE PARAMETER AND NON-PARAMETER APPLICATIONS

Revision History

Date	Version	Description
11-21-2019	v1.0	1. Initial Release

Introduction

This document describes the PAXSTORE parameter and non-parameter applications.

Description

The PAXSTORE can support both parameter and non-parameter applications and downloads. A parameter application supports a separate parameter file. A non-parameter application does not support a separate parameter file.

Parameter Application

The parameter application supports an external parameter file. The parameter file includes parameters to support various options and features. The PAXSTORE has the ability to manage the parameter file with a dedicated section and the pages are formatted to support the parameters. The PAXSTORE also will include the external parameter file with the application during the download and the parameter file can be downloaded independently. The parameter section in the PAXSTORE is only displayed for applications that support an external parameter file.

Non-Parameter Application

The non-parameter application does not support an external parameter file. The PAXSTORE will not display the parameter file section for non-parameter applications.

Pax Customer Support

For questions or help with the terminal installation please contact your service provider or PAX customer support.
